

## HAZARDOUS WASTE PERMIT MODIFICATION APPROVALS 07/01/20 – 06/30/21

### Overview

Under the Virginia Hazardous Waste Management Regulations (VHWMR), the Department of Environmental Quality (DEQ) must maintain a list of approved hazardous waste management permit modifications. This list must be updated annually. In addition, a notice must be published in a statewide newspaper that an updated list is available for public review. Table 1 below provides information regarding the permit modification approvals that were issued during the most recent state fiscal year ending on June 30, 2021.

**Table 1 – Hazardous Waste Permit Modification Approved in State Fiscal Year 2021**

*Table 1 - This table provides information about hazardous waste permit modifications approved by DEQ between July 1, 2020 and June 30, 2021. It includes the following information: facility name and location, EPA identification number, the classification of the permit modification, a summary of the modification and the date of approval. Permit Modification Classifications are defined in [40 CFR § 270.42](#).*

Facility Name and Location	EPA Identification Number	Permit Modification Class	Summary of Modification	Date of Modification Approval
NASA Goddard Space Flight Center, Wallops Flight Facility, Wallops Island, VA	VA7899929888	Class 2	Revised Groundwater Protection Standard for Ammonia	07/10/20
Safety-Kleen Systems, Inc. Vinton, VA	VAD000737361	Class 1	Contingency Plan Emergency Coordinators	10/15/20
Naval Station Norfolk Norfolk, VA	VA6170061463	Temporary Authorization	Storage of hazardous waste in Building LP-24 to allow for repair of permitted unit for a term of 180 days	11/18/20
Schrader-Bridgeport International, Inc., Altavista, VA	VAD082881970	Class 1	Change in ownership	03/08/21
